# M AHSAN GHAFOOR

Fresh IT graduate with practical experience in ReactJS, ExpressJS, NodeJS, and MongoDB. Passionate about learning and taking on new challenges as a Developer. Confident in my unique skillset and dedication to making valuable contributions to your team's success.

# WORK EXPERIENCE

### Graphic Designer        2020 - 2022

As a remote graphic designer, I collaborated with various digital marketing agencies to design engaging marketing materials, such as social media and website graphics. Now, I am eager to apply my skills in graphic design to web development. With experience in creating visually appealing designs and attention to detail, I am confident that I can be a valuable addition to any web development team.

# PROJECTS

### E-Commerce Website⧉

The objective of this project was to develop an E-commerce website that allows customers to browse, select and purchase products online. The project was done as part of a TechLift bootcamp for gaining experience in web development as MERN Stack Developer.

**Key Features**

- User registration and login system
- Product browsing and search functionality
- Shopping cart functionality for adding and removing products
- Product detail pages with product descriptions, images, review & pricing

**Technology Stack:**

*ReactJS, NodeJS, ExpressJS, MongoDB, Redux, JWT, JavaScript, HTML, CSS*

### Donate Happiness⧉

I developed a charity website for my final year IT project. It enables donors to make online donations and charities to create and manage fundraising campaigns. The website also has a blood donation feature that lets donors register and needy people request blood donations. It shows my skills in web development and problem-solving.

**Key Features**

- User registration and login system
- Campaign browsing and search functionality for donors
- Blood donation feature that allows donors to register needy people to request donations
- Email notification system for donation, campaign, and blood donation status updates

**Technology Stack:**

*ReactJS, NodeJS, ExpressJS, MongoDB, JWT, JavaScript, HTML, CSS*

# EDUCATION

**Bachelors of Information Technology**
