AHSAN GHAFOOR

Full Stack Software Engineer | React | Next.js | Node.js | Django | AI/RAG | AWS

Lahore, Pakistan | +92 309 0490477 | ahsanghafoor2016@gmail.com | LinkedIn | GitHub | Portfolio

3+ Years Full Stack	**React/Next** Frontend	**Node/Django** Backend	**AI/RAG + AWS** Product Systems

RECRUITER SNAPSHOT

Full Stack Software Engineer with 3+ years of experience building production web apps, AI driven features, real time systems, and cloud based platforms. Strong in React, Next.js, Node.js, Express, Django, PostgreSQL, MongoDB, Socket.io, AWS SES/SNS, Twilio, and RAG based systems.

HIGHEST IMPACT

- **Built bulk email infrastructure** for 50,000+ recipients using Amazon SES, SNS, and CloudWatch with delivery, open, click, bounce, failure, and complaint tracking.
- **Developed real time game backend APIs** with Socket.io supporting 1,000+ concurrent users.
- **Worked with Mozilla Firefox ads team** on a large scale ad delivery platform using React, Django/Python, and PostgreSQL.
- **Delivered AI/RAG and agentic commerce workflows** for document querying, product recommendations, checkout, and payment flows.

TECHNICAL SKILLS

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, SASS, MUI, Shadcn, Redux toolkit, TanStack Query

Backend: Node.js, Express.js, Django, REST APIs, JWT, OAuth, cron jobs, Socket.io, Twilio

Databases: PostgreSQL, MongoDB, MySQL

Cloud/AI: AWS, Amazon SES, Amazon SNS, CloudWatch, Firebase Auth, Google Analytics, RAG, vector embeddings, semantic chunking

WORK EXPERIENCE

Software Engineer | Grandeur **06/2025 - Present**

- Developed a **RAG** document query system using vector embeddings and semantic chunking so users can retrieve specific information from documents faster.
- Built AI driven workflows for an experimental **agentic commerce** platform covering product selection, recommendations, checkout, and payment processing.
- Created **OtherMe**, an AI powered content platform with Twitter connection, personality onboarding, competitor tracking, tweet generation, and plan based usage limits.
- Built **Bridge** voice platform with Twilio, secure PIN authentication, agent routing, and real time speech to text transcription for compliance recording.

MERN Stack Developer | TechLeadz **12/2023 - 06/2025**

- Collaborated with **Mozilla Firefox** ads team on a large scale ad delivery platform using React, Django/Python, and PostgreSQL.
- Built **EventVibe** with Next.js and TanStack Query, including event listings, lazy loaded galleries, blog CMS, and Google Analytics tracking.
- Developed **DJ Management** system with automated DJ assignment, confirmations, Instagram account tracking for event promotion, and event record management. In addition, implemented promotional email sending to 50,000+ recipients using Amazon SES with status tracking through Amazon SNS and CloudWatch.

MERN Stack Developer | Softtik Technologies **01/2023 - 12/2023**

- Developed **Modern Poker Club** backend and admin panel with JWT authentication, game state APIs, and Socket.io for real time gameplay supporting 1,000+ concurrent users.
- Built **Metamart** Unity Game backend with REST APIs, secure OAuth authentication, admin dashboard, real time analytics, player statistics, and revenue tracking.

EDUCATION

Bachelor of Information Technology | University of the Punjab **2018 - 2022**

Intermediate in Computer Science | Punjab College Depalpur **2016 - 2018**
